Our beliefs set us apart from others

At Emmetsburg Care Center, we believe the individuals who live in our home, and their families, should have choices and input in their health care, activities, meals, and the overall direction of their lives. We focus on physical, emotional and spiritual wellness, providing compassionate care and understanding in an environment that nurtures personal relationships, and values the unique contributions of each resident.

Our goal is to provide our residents with the utmost comfort and dignity through quality of care, community involvement, and a place to call **home**.

"I don't have to do the cleaning, or cook my meals. The food is delicious. I enjoy all the activities. It is such a friendly atmosphere and the staff are great. This is home to me now. I love it here!"—Georgia Kassel

Enjoy your time with us

Residents are encouraged to enjoy the activities of their choice both within our home and in the community. Our goal is to keep our residents as active and independent as possible by making sure we have choices and well-suited activities for all. Community outings and internal events are all directed by resident preferences.

Get back on your feet

We offer a generous range of medical and rehabilitative services, and not only for our long-term residents. Individuals of all ages take advantage of Rehab-to-Home, a service that helps them recover after surgery, injuries, or weakness due to illness. We help get them back on their feet with options for Physical, Occupational and Speech Therapy.

For folks on the move

Let us take you where you want to go! We have our own wheel-chair accessible van that can be used for community outings and transportation to and from medical appointments. We also use our van to accept new admissions or to transport residents after a hospital stay free of charge.
